Subject: NESHAP Subpart W Proposed Rule

Hello Caryn,

Happy New Year. Attached please find the NESHAP Subpart W proposed rule (RIN 2060-AP-26). We have permission from OMB staff (Cortney Higgins) to proceed with uploading into ROCIS. The proposed rule has been reviewed by ORIA management and approved for uploading. Please let me know when the rule has been uploaded and I can notify the OMB desk officer. One question: is it time to remove the EO 12866 header before uploading? Please let me know if you have any questions or comments. Thanks!

Reid
